Notice of revision to the full-year consolidated financial forecast

Toshiba Tec Corporation (the “Company”) hereby announces the revision to the full-year consolidated financial forecast released on February 9, 2026, for the fiscal year ending March 31, 2026, as follows.

(1) Revision to the full-year consolidated financial forecast for the fiscal year ending March 31, 2026 (April 1, 2025-March 31, 2026)

	Net sales	Operating profit	Ordinary profit	Profit attributable to owners of parent	Basic earnings per share
	Million yen	Million yen	Million yen	Million yen	Yen
Previously announced forecast (A)	570,000	12,000	8,000	0	0.00
Revised forecast (B)	570,000	14,000	10,500	(2,300)	(43.41)
Change (B)-(A)	-	2,000	2,500	(2,300)	(43.41)
Change (%)	-	16.7	31.3	-	-
(Reference) Results of the previous fiscal year (ended March 31, 2025)	577,023	20,251	18,344	29,937	565.44

(2) Reasons for revision to the consolidated financial forecast

With respect to net sales, although net sales in the Retail Solutions Business Group are expected to decrease due to factors including the shifting of POS system sales for overseas markets to the next fiscal year, net sales in the Workplace Solutions Business Group are expected to increase due to increased sales volume, foreign exchange impacts and other factors. With respect to profit, operating profit and ordinary profit are expected to increase compared with the previously announced forecast, reflecting improved profitability of POS systems for the domestic market, as well as higher net sales and an improved sales mix in the Workplace Solutions Business Group. In addition, profit attributable to owners of parent is expected to be a loss compared with the previously announced forecast because, as announced on April 2, 2026, the Company recorded an impairment loss on investment securities as an extraordinary loss with respect to certain investment securities held by the Company whose market value has declined significantly below their acquisition cost. Based on these factors, the Company has revised the full-year consolidated financial forecast for the fiscal year ending March 31, 2026 as set forth above.

The reference exchange rates used in the full-year consolidated financial forecast for the fiscal year ending March 31, 2026 are ¥150.22 to the US dollar and ¥173.77 to the euro.

Additionally, the year-end dividend forecast remains unchanged from 20 yen per share (annual dividend of 20 yen) announced on February 9, 2026.
