

Caution: Installation of the PKBST-50 for POSReady 2009

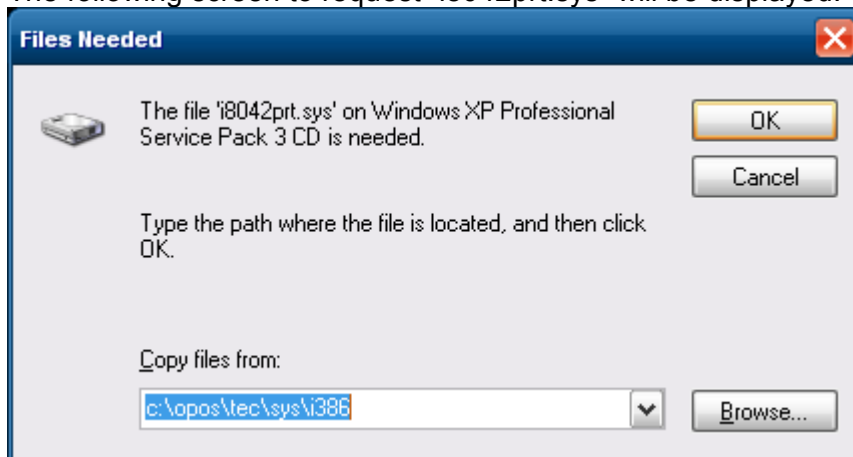

In case of installing the PKBST-50 (with Keylock, MSR) on POSReady 2009, "i8042prt.sys" and "Kbfilter.sys" file is requested and the screen that request to insert "Windows XP Service Pack 3 CD" is displayed several times.

Please set the path for the location of "i8042prt.sys" and "Kbfilter.sys" file each time.

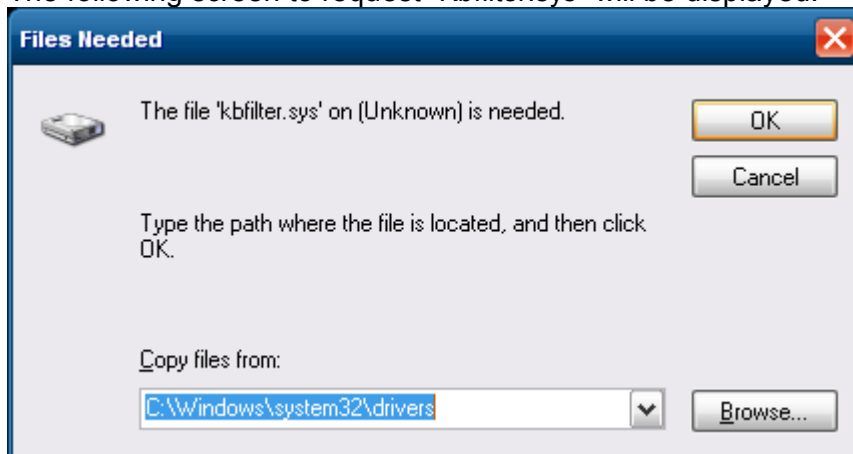

When "i8042prt.sys" file is requested -> Set the path to "c:\windows\system32\drivers"

When "Kbfilter.sys" file is requested -> Set the path to "c:\opos\tec\sys"

The following screen to request "i8042prt.sys" will be displayed.

The following screen to request "Kbfilter.sys" will be displayed.

Note: If "Additional Drivers" or "Optional Components" is installed additionally in POSReady 2009 installation, these screen is not displayed. (Refer to Notice 4.1 in "ST-A10 WinSetup".)
