

For near-edge printers

The AS1 is a new generation resin ribbon developed for applications requiring excellent mechanical and solvent resistance. It is the recommended product for use in harsh environment label printing for the chemical and pharmaceutical industries. The AS1 is compatible with most synthetic materials, and some matt and high gloss coated papers.

It will withstand temperatures of up to 180°C (356°F) and has a blackness of 1.8 (ODR). It is UL recognized and has BGA approval (EU direct food contact). It also offers the very best in printhead protection, as with all Toshiba ribbon products.

Toshiba AS1 is the preferred choice for all images destined for harsh situations.

Characteristics

Excellent print quality	Multi receptor compatibility and sensitivity
Good resistance to high temperatures	Available in colors
Outstanding scratch and solvent resistance	

Specifications (Performances expressed in this sheet are for the black ribbon)

Ink	Type	Resin
	Melting point	80°C (176°F)
Carrier	Film thickness	<9µm(0.354mil)
	PET thickness	4.5µm (0.177mil)
	Tensile strength	>300 N/mm ² (MD) (43,512 PSI)
Back Coating	Silicone product based	Friction coefficient Kd <0.2
Colors	● Black, ○ White, ● Dark blue (286 C), ● Dark red (192 C), ● Green (Green C)	

Ribbon is anti static build up treated. Storage: 12 months, 5-35°C (41-95 F) 20-80% Humidity

Certifications and Approvals (For other standards, please contact us)

LFGB	Food contact (Europe)		UL/CSA Legibility and durability of the printed label.
	1935/2004/EC		
Heavy metals	EC 98/638.		
Ames test	The ribbon is not mutagenic, does not cause DNA modifications.		
TSCA	The ribbon does not contain any of the toxic substances mentioned in this list.		
California Proposition 65	The ribbon does not contain any of the chemicals mentioned in this list. (except for carbon black which as far as we know is present in every black TT ribbons).		
EC Directives	1999/45/EC and 2001/59/EC. The ribbon does not contain any substance classified as dangerous for health.		

Always Choose Toshiba Ribbons for Toshiba Printers

The wide range of Toshiba ribbons available today ensures that our valued customers have different product options for virtually every thermal transfer application. Using Toshiba ribbons ensures optimum print quality causing minimum wear on working parts - in particular to the printhead.

Before a ribbon is certified by Toshiba it must first undergo stringent tests to ensure its continuity and reliability in the field. It is assessed on a variety of receiving materials, and at every speed and temperature combination. Only once this procedure is complete and deemed successful will the ribbon receive its certificate of approval.
