

### For corner / near-edge printers

RG2 is a wax resin ribbon introduced to meet the technical requirements of Toshiba's industrial printers. It has been developed, designed, tested and prepared to extremely high standards. It offers clear, sharp-edged printing on to a wide range of receiving materials and tags, and maximises barcode scanning rates. It also utilises a patented back coating technology which minimises static electricity and reduces wear on the printhead.

Toshiba RG2 ribbons – ideal for fast smearless images from industrial machines.

### Available for

B-882	B-492	B-572	B-SX4
B-682	B-372	B-672	B-SX5
B-482	B-472	B-872	

### Characteristics

- Specially designed for edge type thermal printhead
- Low electronic incidence
- High sensitivity (printing speed: up to 10 inches/second)

### Specifications

Ink	Type	Wax/resin
Carrier	Type	Polyester film
	Thickness	4.5 ± 0.4 µm
	Transparency	Min. 0.65*
Printed properties	Image Density (ODU)	Min 1.5*
	Image resolution	Min. horizontal bar ANSI B
Durability	Friction resistance	Min. vertical bar ANSI A
	Scratch resistance	Min. 200 (cast coated paper white PET)
Colours	● Black	

\*Please note that not using TOSHIBA approved ribbons affects any printer and printhead warranties offered by TOSHIBA Europe. ## Always choose Toshiba ribbons for Toshiba printers

The wide range of Toshiba ribbons available today ensures that our valued customers have different product options for virtually every thermal transfer application. Using Toshiba ribbons ensures optimum print quality causing minimum wear on working parts - in particular to the printhead.

Before a ribbon is certified by Toshiba it must first undergo stringent tests to ensure its continuity and reliability in the field. It is assessed on a variety of receiving materials, and at every speed and temperature combination. Only once this procedure is complete and deemed successful will the ribbon receive its certificate of approval.

This commitment to quality and reliability is what you would expect from Toshiba as the biggest thermal transfer ribbon distributor in Europe.

### Other approved ribbon types available

<b>Standard applications</b>	<ul style="list-style-type: none"> <li>● Wax</li> <li>● Wax resin</li> </ul>	<ul style="list-style-type: none"> <li>● Super wax resin</li> <li>● Full resin</li> </ul>
<b>Specialist resins for</b>	<ul style="list-style-type: none"> <li>● Wash-care &amp; textile labelling</li> <li>● Harsh chemical and industrial uses</li> </ul>	<ul style="list-style-type: none"> <li>● Extreme automotive and aviation environments</li> </ul>

Colour ribbons are also available in all qualities including HazChem orange.
